ACCESS SERVICE

DEFINITIONS

Access: The ability to enter or exit a local exchange network in order to complete an interstate communication. A connection between a Customer Premises and the Customer Designated Premises of an interexchange carrier for the transmission of communication information.

Access Charge: Charges assessed to the Customer through which the provider of the switch or facilities is compensated for use of the network components.

Access Service Request (ASR): The service order form used by access service Customers and the Company to the process of establishing, moving or rearranging access services provided by the Company.

Advance Payment: Part or all of a payment required before the start of service.

Call: A Customer or End User attempt for which the complete address code (e.g., 0-, 911, or 10 digits) is provided to the Central Office, switch, or equivalent facility.

Carrier Common Line Charge: A charge to recover the non-traffic sensitive portion of the local loop, drop and associated equipment between the end office switch and the end user customer.

Company: Lucre, Inc., the issuer of this tariff, a competitive local exchange carrier.

Commission: Federal Communications Commission.

Constructive Order : In the absence of an ASR or other written order, any delivery of calls to or acceptance of calls from any Customer of the Company's services constitutes a Constructive Order to purchase switched access services as described herein. Similarly, the selection of an IXC by an End User as the End User's PIC constitutes a Constructive Order for switched access by the IXC.

Customer: Any person, firm, partnership, corporation or other entity, including, but not limited to conference call providers, chat line providers, calling card providers, call centers, help desk providers, international providers operating within the United States, and residential and/or business service subscribers, which uses service under the terms and conditions of this tariff and is responsible for the payment of charges. The term "Customer" also refers to an Interexchange Carrier utilizing the Company's Switched or Dedicated Access services described in this tariff to reach End Users. The Customer is responsible for the payment of charges and compliance with the terms and conditions of this tariff. Customers may be assessed fees and surcharges, including, but not limited to Subscriber Line Charges, and Federal Universal Service Fund charges, state and federal taxes and regulatory fees.

ACCESS SERVICE

DEFINITIONS (Cont'd)

End User Premises: The premises specified by the Customer or End User for the purposes of connecting to the Company's services. End User Premises may include space where the Customer or End User has collocated equipment within the Company's central office or carrier hotel.

Exchange: The geographic area established by the Company and approved by the regulatory commission for the provision of local telecommunications services.

FCC: Federal Communications Commission

Hub: A physical arrangement/location where bridging and/or multiplexing functions are provided.

Individual Case Basis or ICB - A process whereby the terms, conditions, rates and/or charges for a service provided under the general provisions of this tariff are developed or modified based on the unique circumstances in each case.

Interexchange Carrier: A carrier engaged in the provision of intrastate, interstate or international telecommunications services.

Issued: June 23, 2009

ACCESS SERVICE**DEFINITIONS** (Cont'd)

Optional Features and Functions: These are features and functions a customer may order to improve the quality or utility of Access Services.

Originating Access: Traffic that is initiated by a customer in one local exchange maintained by the Company, and that is bound for an NPA-NXX associated with another exchange.

Pay Telephone: The term denotes a coin or coinless instrument provided in a public or semipublic place where Payphone Service Provider customers can originate telephonic communications and pay the applicable charges by (1) inserting coins into the equipment, or (2) using a credit card, or (3) third party billing the call, or (4) calling collect.

Payphone Service Provider: The term denotes an entity that provides pay telephone service, which is the provision of public, semi public or inmate pay telephone service.

Point of Termination: The point of demarcation within a Customer or End User Premises at which the Company's responsibility for the provision of access service ends. The point of demarcation is the point of interconnection between Company communications facilities and Customer-provided or End User-provided facilities as defined in Part 68 of the Federal Communications Commission's Rules and Regulations.

Premises: The space occupied by a Customer, End User or authorized user in a building or buildings or contiguous property not separated by a public right of way. End User Premises may also denote an area where the Customer has placed equipment in the Company's collocation space or carrier hotel.

Presubscription: An arrangement whereby a Customer selects and designate to the Company or other LEC a carrier he or she wishes to access, without an access code, for completing interLATA and/or intraLATA toll calls. The selected carrier is referred to as the Primary Interexchange Carrier.

Recurring Charges: Monthly charges to the Customer for services, facilities and equipment which continue for the agreed-upon duration of the service.

Issued: June 23, 2009

Effective: June 24, 2009

R. Steven Hale, President/CEO

ACCESS SERVICE**DEFINITIONS** (Cont'd)

Service Order: A written request for Access Services initiated by the Customer to the Company in the format devised by the Company. It is sometimes referred to as an Access Service request (ASR). The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties set forth herein pursuant to this tariff, but the duration of service is calculated from the Service Commencement Date.

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, or on the date upon which the Company begins to provide service to the Customer, whichever is earlier. The parties may mutually agree on a substitute Service Commencement Date.

Subscriber Line Charge (SLC): A fee imposed on a per access line, or a per port basis in the case of collocated Customers, that recovers part of the cost of the Carrier's local network. This fee is regulated and capped by the Federal Communications Commission and is assessed on a monthly basis. Customers that purchase End User Access Services, or collocate equipment in the Company's central office and/or carrier hotel are subject to this fee.

Switched Access Service: Where originating or terminating access between an End User and an Interexchange Carrier is provided via common facilities, circuits or channels provided by a local exchange carrier.

Terminal Equipment: Telecommunications devices, apparatus and associated wiring on the Customer-designated premises.

Terminating Access: Traffic that is delivered to an NPA-NXX associated with a Company exchange, and that originates from another exchange. Terminating Access traffic may include long distance voice telephone calls that are delivered to Customers, including, but not limited to conference call providers, chat line providers, calling card providers, call centers, help desk providers and international providers operating within the United States, and residential and/or business service subscribers.

Wire Center: A building in which the Company's switching center is located for the purpose of providing service.

ACCESS SERVICE

2. GENERAL REGULATIONS

2.1 Undertaking of the Company

2.1.1 Scope

The Company undertakes to provide Service(s) and the furnishing of interstate transmission of information originating and terminating in all of the Company's service areas, subject to the availability of necessary facilities.

2.1.2 Terms and Conditions

2.1.2.1 Services are provided 24 hours daily, seven days per week except as set forth in other applicable sections of this tariff. Service is provided on the basis of a minimum period of one month. For purposes of computing charges in this tariff, a month is considered to have 30 days.

2.1.2.2 End User Customers are required to enter written service orders (ASR) with specific descriptions of service(s) ordered as more specifically covered in the Access Ordering (section 3) of this tariff. However, the failure to enter into a written or oral service agreement will not eliminate any payment obligation, or any other customer, whether or not an application for service or ASR has been executed or submitted.

2.1.2.3 For End User services, at the expiration of the initial term specified in each service order, or in any extension thereof, service shall continue on a month-to-month basis at the ten-current rates unless terminated by either party upon 30 days written notice. Any termination shall not relieve the End User Customer of its obligation to pay any charges incurred under the service order and this Tariff prior to termination.

2.1.2.4 For Interexchange Carrier Customers, services will commence at the time the Interexchange Carrier receives traffic from, or delivers traffic to the Company. Service will continue for as long as the Interexchange carrier receives traffic from or delivers traffic to the Company.

2. GENERAL REGULATIONS (Cont'd)

2.1 Undertaking of the Company (Cont'd)

2.1.2 Terms and Conditions (Cont'd)

- 2.1.2.5 The Company does not undertake to transmit messages under this tariff or jointly participate in the Customer's communications. The Customer shall be solely responsible for message content.
- 2.1.2.6 The Company will, for maintenance purposes, test its service to the extent necessary to detect and/or clear troubles.
- 2.1.2.7 Service may be terminated on written notice to the Customer if the Customer is using the service in violation of the tariff or the Customer is using the service in violation of the law.
- 2.1.2.8 This tariff shall be interpreted and governed by the rules and/or guidelines of the Federal Communications Commission.

2. GENERAL REGULATIONS (Cont'd)

2.1 Undertaking of the Company (Cont'd)

2.1.3 Limitations

2.1.3.1 Assignment or Transfer of Services

2.1.3.1 The Customer may assign or transfer the use of Service(s) provided under this Tariff only where there is no interruption of use or relocation of the Service(s). Such assignment or transfer may be made to another Customer, whether an individual, partnership, association or corporation provided the assignee or transferee assumes all outstanding indebtedness for such services, and the unexpired portion of the minimum period and any termination liability applicable to such Service(s).

- (A) In all cases of assignment or transfer, the written acknowledgment of the Company is required prior to such assignment or transfer. This acknowledgment shall be made within 15 days from the receipt of notification. All regulations and conditions contained in this tariff shall apply to such assignee or transfer.
- (B) The assignment or transfer of services does not relieve or discharge the assignor or transferor from remaining jointly or severally liable with the assignee or transferee for any obligations existing at the time of the assignment or transfer.

2.1.3.2 Interexchange Carrier Customers may not transfer services without the permission of the Company.

2. GENERAL REGULATIONS (Cont'd)

2.1 Undertaking of the Company (Cont'd)

2.1.3 Limitations (Cont'd)

2.1.3.2 Provisioning Sequence

The services offered herein will be provided to Customers on a first-come, first-served basis. The first-come, first-received sequence shall be based on the received time and date recorded by stamp or other notation by the Company on the Customer's Access Service Request (ASR). ASRs must contain all the required information for each respective service so delineated in other sections of this tariff. The Customer's ASRs will not be deemed to have been received until such information is provided. In cases of Constructive Orders by End User or Interexchange Carrier Customers, the Company will provision service on a first-come, first-serve basis.

2.1.3.3 Ownership of Facilities

The title to all facilities provided in accordance with this tariff remains in the Company, its agents or contractors, or successors and assigns.

2.1.7 Non-routine Installation

2.1.7.1 At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours, but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional installation charges will be adjusted to reflect increases in costs incurred by the Company.

2.1.8 Special Construction/Special Arrangements

2.1.8.1 Subject to the plans of the Company and to all of the regulations contained in this tariff, special construction or special arrangements to acquire facilities may be undertaken on a reasonable-efforts basis at the request of the Customer. Special construction is that construction undertaken of a type other than that which the Company would normally utilize in furnishing its Service(s): over a route other than that which the Company utilize in furnishing its Service(s); where facilities are not presently available, and no other requirement exists for the facilities so constructed; on a temporary basis until permanent facilities are available; in a quantity greater than that which the Company would normally construct; facilities required on an expedited basis and/or requiring abnormal costs; or in advance of its normal construction. Special Construction charges will be determined and approved by the Customer prior to the start of such construction.

2.1.8.2 Special arrangements generally refer to the procurement of facilities where Company facilities are not available and where arrangements or agreements from another entity are required to provision the Service.

- 2.4.6.1 Upon nonpayment of any amounts owing to the Company, the Company may by giving ten days' prior written notice to the Customer, discontinue or suspend Service without incurring any liability.
- 2.4.6.2 Upon violation of any of the other material terms or conditions for furnishing Service, the Company may, by giving 10 days' prior notice in writing to the Customer, discontinue or suspend Service without incurring any liability if such violation continues during the period.
- 2.4.6.3 Upon condemnation of any material portion of the facilities used by the Company to provide Service to a Customer or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend Service without incurring any liability.
- 2.4.6.4 Upon any governmental prohibition or required alteration of the Service(s) to be provided or any violation of any applicable law or regulation, the Company may immediately discontinue Service without incurring any liability.
- 2.4.6.5 The Company may terminate service immediately and without notice if the Company determines that the service is causing harm to the Company's network or to the Services the Company is providing to other Customers.
- 2.4.6.6 Upon the Company's discontinuance of Service to the Customer under Section 2.4.6.1 or 2.4.6.2, the Company, in addition to all other remedies that may be available to the Company at law or in equity or under any other provision of this tariff, may declare all future monthly and other charges which would have been payable by the Customer during the remainder of the term for which such Service(s) would have otherwise been provided to the Customer to be immediately due and payable.

2.4.7 Jurisdictional Reporting Requirements

- 2.4.7.1 The Company cannot in all cases determine the jurisdictional nature of customer traffic and its related access minutes. In such cases the Customer may be called upon to provide a projected estimate of its traffic, split between interstate and intrastate jurisdictions. Updates to jurisdictional levels may be made by the Customer not more frequently than quarterly. When mixed interstate and intrastate access is provided, all charges, including non-recurring charges, usage charges, and optional features and functions will be prorated between the jurisdictions.
- 2.4.7.2 When originating call details are insufficient to determine the jurisdiction for the call, the Customer shall supply the projected interstate percentage or authorize the Company to use the Company-developed percentage. The projected intrastate percentage of use will be obtained by subtracting the projected interstate percentage for originating and terminating access minutes from 100 (intrastate usage percentage = 100 - interstate percentage).
- 2.4.7.3 Unless otherwise agreed to in writing, the Company will rely exclusively on Customer's estimates of the percentage of interstate and intrastate traffic. Company has no obligation to – and will not – verify or guarantee the correctness of Customer's estimate.
- 2.4.7.4 The Company reserves the right to conduct its own studies and projections to determine or verify the jurisdictional nature of the traffic.

2.4.8 Cancellation of Application for Service

Provisions for the cancellation of an Application for Service are provided here and are set forth in other applicable sections of this tariff.

2.4.8.1 Applications for Service are non-cancelable unless the Company otherwise agrees. Where the Company permits Customer to cancel an application for Service prior to the start of Service or prior to any special construction, no charges will be imposed except for those specified below.

2.4.8.2 Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the Service or in preparing to install the Service that it otherwise would not have incurred, a charge equal to the costs the Company incurred shall apply, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun.

2.4.8.3 Where the Company incurs any expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before the Company receives a cancellation notice, a charge equal to the costs the Company incurred shall apply. In such cases, the charge will be based on such elements as the cost of the equipment, facilities, and material, the cost of installation, engineering labor, and supervision, general and administrative expense, other disbursements, depreciation, maintenance, taxes, provision for return on investment, and any other costs associated with special construction or arrangements incurred by the Company.

2.4.8.4 The special charges described above will be calculated and applied on a case-by-case basis.

2.4.9 Changes in Service Requested

2.4.9.1 If the Customer makes or requests material changes in circuit engineering, equipment specification service parameters, premises locations, or requests expedited provisioning, or otherwise materially modifies any provision of the application for service, the Customer's installation fee and/or recurring charges shall be adjusted accordingly.

2.4.10 Allowances for Interruptions in Service

A Service is interrupted when it becomes unusable to the Customer because of a failure of a facility component used to furnish Service under this tariff or in the event that the protective controls applied by the Company result in a complete loss of Service by the Customer. An interruption begins when an inoperable Service is reported to the Company and ends when the Service is operable. If the Customer reports a Service, facility or circuit inoperable, but declines to release it for testing and repair, it is considered to be adversely affected, but not interrupted. In case of an interruption to any Service, allowance for the period of interruption, if not due to the negligence of the Customer, shall be provided.

2.4.10.1 For the services provided under this tariff, no credit shall be allowed for an interruption of less than 24 hours. The End User Customer shall be credited for an interruption of 24 hours or more at the rate of 1/30 of any applicable monthly rate or assumed minutes of use charge for each period of 24 hours. The credit allowance(s) for an interruption or for a series of interruptions shall not exceed any monthly rate for the service interrupted in any one monthly billing period.

- 2.5.2.1 Customer traffic to end offices will be measured by the Company at end office switches. Originating and terminating calls will be measured by the Company to determine the basis for computing chargeable access minutes.
- 2.5.2.2 For originating calls usage measurement of access minutes beginning when the originating switch receives the first link supervisory signal forwarded from the Customer's point of termination, or when the SS7 message is sent from the service Switching Point to the Signal Transfer Point or when the end office receives the SS7 exit message from the tandem.
- 2.5.2.3 The measurement of originating usage ends when the originating first point of switching receives disconnect supervision from either the originating end user's end office, indicating the originating End User has disconnected, or the Customer's point of termination, whichever is recognized first by the first point of switching. Or, for originating calls with SS7 signaling, usage ends when the originating switch receives an SS7 release message indicating either originating or terminating End User has disconnected.
- 2.5.2.4 For terminating calls, the measurement of access minutes begins when the terminating switch receives answer supervision from the terminating user's end office, indicating that the terminating End User has answered.
- 2.5.2.5 The measurement of terminating call usage ends when the terminating switch receives disconnect supervision from either the terminating End User's end office, indicating the terminating End User has disconnected, or the Customer's point of termination, whichever is recognized first by the first point of switching. 2.5.3 Distance Charges

2.5.3.1 Where charges for an access service are based on distance, the distance between two points is measured as airline distance between rate centers as listed in the National Exchange Carrier Association FCC No. 4, Wire Center Tariff or Local Exchange Routing Guide (LERG) issued by Telcordia which contains Numbering Plan Area (NPA) and Exchange Number Assignment (NXX) (area code and first three digits of a seven-digit telephone number).

2.5.3.2 The airline distance between any two rate centers is determined as follows:

- (a) Obtain the "V" (vertical) and "H" (horizontal coordinates for each rate center from the above referenced document(s),
- (b) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates,
- (c) Square the difference obtained in (b) above,
- (d) Add the square of the "V" difference and the square of the "H" difference obtained in (c) above,
- (e) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained,
- (f) Obtain the square root of the whole number result obtained in (e) above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage applicable.

2.5.4.1 Service may be suspended or terminated for nonpayment (subject to exceptions provided in Section 2.4.6) of any bill or deposit until such bill or deposit is paid. If Service is suspended or terminated for nonpayment, the Customer must remit a connection charge as well as any payment due and any deposit requested by the Company prior to reconnection or reestablishment of Service.

2.5.4.2 Suspension or termination of Service will not be made until after: (1) at least 10 days written notification has been served personally on the Customer; (2) at least 10 days after verification of receipt of certified mail has been made by the Company; or (3) at least 10 days after the Customer has refused a certified or registered written notification mailed to the Customer billing address. Service shall not be suspended or terminated on weekends, legal holidays or on days when the business office of the Company is not open for business.

2.5.4.3 When a Customer refuses to pay bills rendered or deposits requested (subject to exceptions shown in Section 2.4.6) the Company may refuse to process existing orders for Service(s) or to accept new orders for Service.

2.5.4.4 The Company, after providing notice in writing to the Customer, may suspend, terminate or refuse Service(s) in the event of unauthorized use of Service(s) or facilities received from the Company, where the Customer is indebted to the Company for previously furnished Service(s) or facilities or where the use of Service(s) or facilities have been abandoned. 2.6 Cancellation by Customer

2.6.1 General

2.6.1.1 Customers of the Company's service may cancel service by providing the Company with written notification thirty (30) days prior to the requested cancellation date. The Company shall hold the Customer responsible for payment of all bills for service furnished until the cancellation date specified by the Customer or until thirty (30) days after the date that the cancellation notice is received, whichever is later.

2.6.1.2 Customers seeking to cancel service have an affirmative obligation to block traffic originating from or terminating to the Company's network. By originating traffic from or terminating traffic to the Company's network, the Customer will have constructively ordered the Company's switched access service.

2.6.2 Cancellation of Contract Services

2.6.2.1. If a Customer cancels a service order or terminates services before the completion of the term or where the Customer breaches the terms in the service contract, the Customer may be requested by the Company to pay to Company termination liability charges. These charges shall become due and owing as of the effective date of the cancellation or termination. Unless otherwise specified in this tariff, the termination liability shall be equal to:

- (A) all unpaid nonrecurring charges reasonably expended by the Company to establish service to Customer, plus;
- (B) any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by the Company on behalf of Customer, plus;
- (C) all recurring charges specified in the applicable service order for the balance of the then current term.

2.6.3 Cancellation of Application for Service

- A. Where the Company permits the Customer to cancel an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for those specified below.
- B. Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of services ordered, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun.
- C. Where the Company incurs any expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before the Company receives a cancellation notice, a charge equal to the costs incurred, less net salvage, may apply. In such cases, the charge will be based on such elements as the cost of the equipment, facilities, and material, the cost of installation, engineering, labor, and supervision, general and administrative expense, other disbursements, depreciation, maintenance, taxes, provision for return on investment, and any other costs associated with the special construction or arrangements.
- D. The charges described above will be calculated and applied on a case-by-case basis.

ACCESS SERVICE

3. ACCESS ORDERING

3.1 General

This section sets forth the regulations and order related charges for Service(s) shown in other sections of this tariff. Order charges are in addition to other applicable charges for Service(s) provided. An Access Service Request (ASR) is an order to provide the customer with Switched Access or Access Related Service, or to provide changes to existing access services.

A Customer may order any number of services of the same type and between the same premises on a single ASR. All details for services for a particular order must be identical except for those for multi-point Service.

The Customer shall provide to the Company the following information in addition to other requirements of this section:

- Customer name and premises address,
- Billing name and address, if different from Customer name and address,
- Customer contact name(s) and telephone number(s) for order confirmation, order provisioning information, order negotiation, interactive engineering design, installation and billing.

3.1.1 Service Installation

The Company will provide Access Service in accordance with the Customer's requested Service date, subject to the constraints established by the Company schedule of Service dates.

The Company schedule shall specify the applicable service interval for Service(s) and the quantities of Service(s) that can reasonably be provided by a service date. Said schedule will be available to Customers upon request and will be provided in a reasonable period of time.

ACCESS SERVICE

3. ACCESS ORDERING (Cont'd)

3.1 General (Cont'd)

3.1.1 Service Installation (Cont'd)

Installation of Service(s) will be during Company business days and hours. Customer requests for installations outside of scheduled work hours, if agreed to by the Company, will be subject to applicable additional labor charges.

The Company will not accept orders for Service that are for a date more than six months from the current date. The Company will, however, accept information for planning purposes in advance of order placement.

3.1.2 Expedited Orders

When a Customer places an Access Service Request (ASR) and requests a Service date that is prior to the Company's applicable interval service date of the Company, or when a Customer requests an earlier Service date on an existing ASR, the Company, in addition to other applicable charges for modification or Service date change, will determine if it can meet the requested date and what additional labor and/or extraordinary costs are required. The Customer will be notified of the additional estimated costs for authorization.

3.1.3 Selection of Facilities

The option to request a specific path or channel is not provided to the Customer, but within the purview of the Company.

3.1.4 Constructive Ordering

The Customer may obtain service via Constructive Order. A Constructive Order is initiated when calls are delivered or accepted from any Customer of the Company over the Company's local exchange services. This constitutes a Constructive Order to purchase switched access services as described herein. Similarly, the selection of an IXC by an End User as the End User's PIC constitutes a Constructive Order for switched access by the IXC.

3.2 Ordering Requirements

3.2.1 Switched Access Service

When ordering Switched Access Service, the following information shall be provided by the Customer:

- The number of Busy Hour Minutes of Capacity (BHMC) from the customer designated premises to the end office or the number of trunks desired between the Customer designated premises and the entry switch;
- Optional Features desired; and
- Projected percentage of jurisdictional use.

ACCESS SERVICE

3. ACCESS ORDERING (Cont'd)3.3 Access Ordering Charges

3.3.1 Access Order Charge

An Access Order Charge is applied to all Customer requests for new, additions, or changes and rearrangements to existing Switched Access Service except as follows:

- When a Service Date Change Charge is applicable;
- When a Design Change Charge is applicable;
- When a change to a pending order does not result in the cancellation of the pending order and the issuance is a new order;
- When a Miscellaneous Service Order Charge is applicable;
- When a Presubscription Charge is applicable; or
- When a Company initiated network reconfiguration requires a customer's existing access service to be reconfigured.

An Access Order Charge will be applied on a per order basis.

ACCESS SERVICE

3. ACCESS ORDERING (Cont'd)

3.3 Access Ordering Charges (Cont'd)

3.3.2 Access Order Change Charge

Access Order Change Charges involve service date changes and/or design changes. A change would be a Customer request any time prior to the Service date for the requested Service(s). Any increase in the number of Switched Access lines, trunks or BHMC will be treated as a new order (for the increased amounts) rather than a change order.

3.3.3 Service Date Change Charge

A change of Service date is a change of the scheduled Service date by the Customer to either an earlier date or a later date which does not exceed 30 calendar days from the original Service date. The Customer may request a change of Service date on a pending Access Service Request prior to the Service date and if the Company can accommodate the change, a new Service date will be set and a service date change charge will apply.

ACCESS SERVICE

3. ACCESS ORDERING (Cont'd)

3.3 Access Ordering Charges (Cont'd)

3.3.4 Design Change Charge

A design change is any change to an Access Service Request that requires engineering review prior to the requested service date. Design changes do not include a change of CDP, first point of switching access channel type. Changes of this nature require the issuance of a new order and the cancellation of the original order. Design changes would include such items as the addition or deletion of optional features or functions, change in type of transport termination, type of channel interface group or technical specification changes.

The Company will review the requested Customer change and notify the Customer whether the change is a design change, if it can be accommodated, and if a new Service date is required. On Customer approval, a Design Change Charge would apply in addition to any other charges (e.g. service date change).

3.3.5 Miscellaneous Service Order Charge

A Miscellaneous Service Order Charge is for compensation of administrative expenses associated with issuing the order associated with the provision of Miscellaneous Services such as overtime repair, standby repair, testing, and other labor. The charge does not apply to Service(s) where a pending Service order exists, such as additional engineering, overtime installation, standby acceptance testing, testing with other companies with acceptance testing and additional cooperative acceptance testing.

ACCESS SERVICE

3. ACCESS ORDERING (Cont'd)

3.3 Access Ordering Charges (Cont'd)

3.3.6 Cancellation of Access Order Charge

A Customer may cancel an Access Order for the installation of Service on any date prior to the Service date. The cancellation date is the date on which the Company receives written notice from the customer. When a Customer cancels an Access Service Request, a Cancellation Charge will apply as follows:

- (A) Installation of Switched Access Service facilities is considered to have started when the Company incurs any cost in connection with provisioning the Service that otherwise would not have been incurred.
- (B) When installation of access facilities has been started prior to the cancellation, a charge equal to the lower of either the cost incurred in such installation, less net salvage, or the charges for a minimum period for the service will apply.
- (C) Any partial cancellation (e.g. cancellation in the number of trunks, channels ordered) will be treated as a cancellation and subject to applicable charges as stated in this Section.

Where the Customer cancels an Access Service Request prior to the start of installation of access facilities and no costs have occurred, no charges shall apply.

ACCESS SERVICE

4. SWITCHED ACCESS - CARRIER COMMON LINE ACCESS SERVICE

4.1 General

The Carrier Common Line portion of Switched Access is associated with the local loop, drop and associated equipment from the end office switching center to the End User Customer. The Company will provide the use of Company common lines by a Customer for access to end users at rates and charges set forth in Section 9. Jurisdictional rates apply for originating, terminating and terminating only usage.

The Customer facilities at the premises of the ordering Customer shall provide the necessary on-hook and off-hook supervision.

All Switched Access Service provided to the Customer will be subject to the Carrier Common Line charges, excluding the Common Channel Signaling Access exemption.

4.1.1 Rate Categories

Rate categories for Carrier Common Line are as follows:

Carrier Common Line Originating per Access Minute

Carrier Common Line Terminating per Access Minute The Company's rates for Carrier Common Line Access Service assessed to interexchange carriers are included within the Interstate Switched Access Service rate element described in Section 6.1.1, following. The rate for the Company's Interstate Switched Access Service is found in Section 9.2, following.

ACCESS SERVICE**5. SWITCHED ACCESS – END USER ACCESS CHAGES****5.1 General**

The Company will provide End User Access Service to End Users who obtain local exchange service from the Company under its local exchange tariff. This service is known as an End User Common Line (“EUCL”). An EUCL charge applies to each single-line residence and each multi-party line service as if the Customer had subscribed to single-line service. Similarly, when an End User is provided single business exchange service, multiparty and Centrex services, the EUCL charge applies to each individual line or trunk. In the case of multiparty service, each party is deemed to be a user of an EUCL.

When an End User is provided with a local residence exchange services, the EUCL may be reduced for End Users eligible for the telephone lifeline assistance plan as approved by the FCC.

End User fees or surcharges may be assessed on Payphone Service Providers, multi-line Businesses, and single line business and residential Customers, when appropriate, to meet funding requirements called for in Universal service programs ordered in the FCC’s Rules and Regulations and implemented in Michigan. These programs include Lifeline Assistance, Link-up Assistance, Schools and Libraries funding and Rural Health Care.

5.1.1 Rate Categories

The rate categories will be determined by regulatory rules, but may includes any of the following or another method as determined by the FCC:

- Rate per End User line;
- Rate per access minute; or
- Surcharge per line or Surcharge on revenues.

ACCESS SERVICE

6. SWITCHED ACCESS SERVICE

6.1 General

Switched Access Service provides for the use of common switching, terminating, and trunking facilities between a Customer Designated Premises and an End User's Premises for originating and terminating traffic. The Company provides Feature Group D Switched Access (Equal Access) service, which is furnished in quantities of trunks or busy hour minutes of capacity (BHMC). Switched Access Service consists of local transport and the appropriate end office switching and functions to enable an interexchange carrier Customer to provide message toll service (MTS), wide area telephone service (WATS), directory information and 1+, or when required an access code of 1010 XXXX, services.

6.1.1 Rate Categories

Certain of the rate elements included within the Company's offering of Switched Access Services are included within the single rate for Interstate Switched Access Service. The Company's Interstate Switched Access Service rate elements include, but are not limited to, the following rate elements or their functional equivalent if applicable: carrier common line (originating); carrier common line (terminating); local end office switching; interconnection charge; information surcharge; tandem switched transport termination (fixed); tandem switch transport facility (per mile); and tandem switching.

Rate categories and descriptions include the following:

6.1.1.1 Local Transport

Tandem Switched Facility ("TSF"): Charge recovers a portion of the costs of transmission facilities, including intermediate transmission circuit equipment, between the end points of interoffice circuits. The TSF rate specified in Section 9 is applied on a per access minute per mile basis for all originating and terminating minutes of use routed over the facility.

6. SWITCHED ACCESS SERVICE (Cont'd)

6.1 General (Cont'd)

6.1.1 Rate Categories (Cont'd)

6.1.1.1 Local Transport (Cont'd)

Tandem Switched Terminating ("TST"): Charge recovers a portion of the costs of circuit equipment necessary for the termination of each end of each measured segment of the TSF. The TST rate specified in Section 9 is applied on a per access minute basis (for all originating and terminating minutes of use routed over the facility) at each end of each measured segment of the TSF (e.g., at the end office, Feature Group A dial tone office, host office and the access tandem). Then the TSF mileage is zero, neither the TSF rate nor the TST rate will apply.

6.1.1.2 End Office/Local Switching: Charges related to the Company local end office switching entity which routes traffic to and from End Users to Interexchange Carrier Customers. The end office rate category includes two elements: Local Switching per Access Minute of Use, and an Information/Intercept Surcharge per information call use as determined by the serving arrangement.

6.1.1.2 Information Surcharge: This charge is assessed to a Customer based on the total number of access minutes and is specified in Section 9. The Information Surcharge does not apply to Feature Group B and D Switched Access services associated with Wireless Switching Centers ("WCSs") directly interconnected to a Company access tandem office.

6.1.1.3 800 Database Query: When a 1+800 series + NXX-XXXX call is originated by an End User, the Company will query an 800 database to identify the Customer to whom the call will be delivered and provide vertical features based on the dialed ten digits. The call will then be routed to the identified Customer destination. A charge applied for each completed query that is returned from the 800 database identifying the Customer to whom the call will be delivered, whether or not the actual call is delivered to the Customer.

ACCESS SERVICE

6. SWITCHED ACCESS SERVICE (Cont'd)

6.2 Switched Access Service Specifications – Company Requirements

The provision of Switched Access Service has certain obligations of the Company in addition to those listed in Section 2 preceding. They are as follows:

6.2.1 Network Management

The Company will administer its network to insure the provision of acceptable service levels to all communications users of those services. Generally, service levels are acceptable when Customers are able to establish connections without delay. The Company maintains the right to apply protective controls in the provision of Switched Access Service. Generally, protective controls would be taken as a result of occurrences such as failure or overload of Company or Customer facilities, natural disasters, mass calling demands, or national security demands.

6.2.2 Transmission Specifications

Each Switched Access Service transmission path is provided with industry standard transmission for its type of service. The Company will work in cooperation with the Customer to insure that those parameters are met. In the event the established specifications are not maintained, the Company may require immediate corrective action and may work independently or in cooperation with the Customer to remedy the situation.

6.2.3 Provision of Service Performance Plan

Service Performance data relative to end-to-end call completion and related performance items may be made available to the Customer subject to availability and format on a previously arranged and scheduled basis. Such information will generally be provided in paper format. If other than paper format is desired, charges may apply and would be based on an individual case basis. Trunk Group Measurement reports in the form of CCS, peg count and overflow based on previously agreed to intervals may also be provided.

6.2.3 Testing

Certain testing services offered under the tariff are subject to the availability of qualified personnel and test equipment. Acceptance Testing and Routine Testing will be provided at no additional charge and shall be mutually arranged by the Company and the Customer.

ACCESS SERVICE**6. SWITCHED ACCESS SERVICE (Cont'd)****6.3 Switched Access Specifications – Customer Requirements**

The provision of Switched Access Service has certain obligations of the Customer in addition to those set forth in Section 2 preceding. They are as follows:

6.3.1 Report Requirements

The Customer is responsible for providing reports to the Company, when applicable. Such reports include:

- 6.3.1.1 Jurisdictional Reports – are required when Customer orders Access Service with both intrastate and interstate use so that charges may be apportioned in accordance with those reports.
- 6.3.1.2 Code Screening Reports – are required when Customer orders service class routing, trunk access limitation or call gapping arrangements. The Customer must report the number of trunks and/or appropriate codes to be instituted in each end office for each of the arrangements ordered.
- 6.3.1.3 Trunk Group Measurement Reports – with the agreement of the Customer, trunk group data in CCS, peg count and overflow for its end of all access trunk groups, where technologically feasible will be made available to the Company. These data which will be used to monitor trunk group utilization and service performance, will be based on previously arranged intervals and format.
- 6.3.1.4 Supervisory Signaling - necessary on-hook, off-hook supervision shall be provided by the Customer's facilities in order to provide answer and disconnect supervision.

ACCESS SERVICE

6. SWITCHED ACCESS SERVICE (Cont'd)6.4 800 Database Service

800 Database Service is provided with switched access service. When a 1+ (e.g. 800, 888, or other toll free number) + NXX + XXXX call is originated by an End User, the Company will utilize the Signalling System 7 (SS7) network to query an 800 Database to perform the identification function. The call will then be routed to the identified customer over switched access. The manner in which 800 Database Service is provided is dependent on the availability of SS7 service at the end office from which the service is provided as outlined below:

- When 800 Database Service originates at an end office equipped with Service Switching Point (SSP) capability for querying centralized data bases, all such service will be provisioned from that end office.
- When 800 Database Service originates at an end office not equipped with SSP customer identification capability, the Toll Free Service Access Code call will be delivered to the access tandem on which the end office is homed and which is equipped with the SSP feature to query centralized data bases.

Query charges as set forth in the following are in addition to those charges applicable for switched access service.

6.5 Rate Regulations

This section contains a brief description and the general regulations governing the rates and charges that apply for Switched Access Service.

6.5.1 Description and Application of Rates

Switched Access Service rates are generally of two types; usage rates and non-recurring rates. Usage rates may be minute, and/or distance sensitive, occurrence and/or quantity sensitive or combinations of these usage elements. Non-recurring rates are one-time charges that apply for a specific work activity. Examples would include installation of service, rearrangements of service, moves and changes of service, provision of optional features and functions not ordered initially, service date changes, service design changes, cancellation of access, orders for additional engineering, and expedited orders.

6.5.1.1 Minimum Monthly Charge

Switched Access Service is provided subject to a minimum monthly charge for the total capacity provided. The charge shall be calculated based on the sum of the recurring charges of rate elements associated with services ordered, based on a 30-day month.

6.5.2 Special Construction

Subject to FCC regulations and approval, the Company may, where certain Access Services or arrangements are required to meet Customer requirements, utilize rates based on an Individual Case Basis ("ICB"), as reflected in Section 2 – Special Construction.

ACCESS SERVICE**7. MISCELLANEOUS ACCESS SERVICE****7.1 General**

Miscellaneous Access Service may be provided by the Company at the request of a Customer on an individual case basis if such service arrangements are: not offered under other sections of this tariff; the facilities utilized to meet the request are of a type normally used by the Company in furnishing service; the service or arrangements are compatible with other services and facilities; the service is available and within the Company's personnel and capital resources. Charges may include non recurring, recurring and/or special, terminating costs or combinations thereof.

7.2 Services Offered

Miscellaneous Access Services may include, but are not limited to the following: Special Construction; Additional engineering or Labor; Maintenance of Service; New Access Services; Testing Services; Presubscription; Verification of Orders for Long Distance. Miscellaneous Access Service may be provided to Customers on an individual case basis in accordance with rules of the FCC.

7.2.1 Special Construction

Special construction would include the costs for the provision of an Access Service that may not be available over such routes, facilities or equipment normally provided.

7.2.2 Additional Engineering or Labor

Additional Engineering will apply when requested and approved by the Customer for the following:

- (1) when a Customer requests additional information subsequent to the Company-provided DLR information;
- (2) when additional engineering time is required for a customized order; or
- (3) when a customer requests a design change and additional engineering time is required.

7.2.3 New Services

New services not previously offered under this tariff will be provided initially on an individual case basis in conformance with FCC rules.

ACCESS SERVICE

7. MISCELLANEOUS ACCESS SERVICE (Cont'd)

7.2.4 Testing

When the Customer requests testing which is beyond that which is normally provided at Company locations in connection with Service(s) and at Customer designated premises, additional charges will apply when accepted and approved by the Customer. All testing of this type shall be subject to availability of the necessary qualified personnel and test equipment. A request for testing that is not consecutive with an employees scheduled work period is regarded as a call out. A minimum call out of four hours will apply.

7.2.5 Presubscription

Presubscription is the process by which an end user Customer may select and designate to the Company an interexchange carrier (IXC) for the provision of interstate toll service. This IC is referred to as the end user's pre-designated IXC.

New End Users will be asked to presubscribed to an IXC at the time they place an order with the Company for Telephone Exchange Service. They may select either of the following options. There will be no charge for this initial selection.

- Designate a primary IXC for all its lines, or
- Designate a different IXC for each of its lines.

Only one IXC may be selected for each individual line or lines terminating in the same hunt group. Subsequent to the installation of telephone Exchange Service and after the End User to an IXC based, for any change in selection, a non-recurring charge applies.

If the new End User fails designate an IXC as its predesignated IXC prior to the date of installation of Telephone Exchange Service, the Company will (1) allocate the End User to an IXC based upon current IXC presubscription ratios, (2) require the End User to dial an access code (101XXXX) for all interstate calls, or (3) block the End User from interstate calling. The End User will be notified which option will be applied if they fail to presubscribed to an IXC. An allocated or blocked End User may designate another, or initial, IXC one time at no charge, if it is requested within six (6) months after the installation of Telephone Exchange Service.

For any change in selection after 6 months from the installation of Telephone Exchange Service, a non-recurring charge applies.

7. MISCELLANEOUS ACCESS SERVICE (Cont'd)

7.2 Services Offered (Cont'd)

7.2.5 Presubscription (Cont'd)

If an IXC elects to change or discontinue use of a Carrier Identification Code ("CIC"), the IXC will identify to the Company any affected End Users and advise the Company of the new CIC to be assigned to these End Users. If the CIC change involves a change of carrier for any End Users, the IXC will notify the affected End Users of the change. The Company will change the predesignated carrier code for each End User identified by the IXC to the new CIC and bill the IXC the non-recurring charge for each End User line or trunk that is changed.

A Customer may initiate a presubscription change at any time. The Company will maintain a listing of all available interexchange carriers and provide them on a random sequential basis to aid the Customer in the selection process. The change of any IXC is subject to the appropriate non-recurring charge.

If an IXC request a primary interexchange carrier (PIC) change on behalf of a billed party with the appropriate authorization and the Customer advises the Company the authorization is denied and the IXC is unable to substantiate the change, the Customer will be reassigned to its previously selected IXC if a change has already taken place and the IXC that requested the change will be subject to an Unauthorized PIC Change Charge in addition to the normal PIC change charge.

7.2.6 Maintenance of Service

The Customer shall be responsible for payment of a Maintenance of Service charge when the Company dispatches personnel to the customer designated premises and trouble is found to be with Customer facilities or equipment.

7.2.7 Specialized Service or Arrangements

Specialized Service or Arrangements may be provided by the Company at the request of the Customer on an individual case basis (ICB) if such services or arrangements meet the following:

- the service(s) or arrangement(s) are not offered under other sections of the tariff,
- the service(s) or arrangement(s) are a type normally used by the Company, the service(s) or arrangement(s) are compatible with other Company Service(s), facilities and engineering and maintenance practices,
- the offering is subject to the availability of Company personnel and capital resources.

7.2.8 Blocking Service

7.2.8.1 International Blocking Service

The Company will provide International Blocking Service to customers who obtain Switched Access Service under this tariff. This service is only provided at appropriately equipped Company end offices.

On each line or trunk for which International Blocking Service is ordered, the Company will block all direct dialed international calls that use the call sequence of 011+ or appropriate access code dialing arrangements for international calling. When capable, the Company will route the blocked calls to a recorded message.

An International Blocking Service charge as set forth in Section 9 following is applicable for each new or existing exchange line or trunk or Switched Access line to which International Blocking Service is added or removed. This charge does not apply when blocking is removed from an exchange line or trunk or Switched Access line at the same time that it is disconnected.

7.2.8.2 900 Blocking Service

The Company will provide 900 Blocking Service to Customers who obtain local exchange service from the Company under its general or local exchange tariffs. This service is only provided at appropriately equipped end offices.

On each line or trunk for which 900 Blocking Service is ordered, the Company will block all direct dialed calls placed to a 900 number. When capable, the Company will route the blocked calls to a recorded message.

A Blocking Service charge as set forth in Section 9 following is applicable when ordered by the end user Customer except when such Customer establishes telephone service at a new number and for 60 days thereafter.

The Blocking Service charge is applied for each line for which 900 Blocking Service is added to remove. Requests by End User Customers to remove 900 Blocking Service must be in writing. This charge does not apply when blocking is removed from an exchange line at the same time that it is disconnected.

7.2.9 Originating Line Screening (OLS) Service

The Telephone Company will provide OLS Service to End User Customers who obtain local exchange service from the Company under its general or local exchange tariffs. OLS Service enables Customers to determine whether there are billing restrictions on lines from which a call is placed. OLS Service delivers a code on operator assisted calls made from an aggregator location to identify privately owned payphones, inmate and hotel/motel locations.

OLS Service is provided at no charge when ordered with the installation of new local exchange service. However, when OLS Service is added to existing exchange lines, an OLS Service charge is applied as set forth in Section 9. This charge is applied for each exchange line to which an OLS code is assigned. The Customer must specify the number of lines and each individual telephone number equipped.

A Miscellaneous Service Order Charge as set forth in Section 9 will apply to orders adding OLS Service that are placed subsequent to the initial installation of the associated exchange line. This charge does not apply when the OLS code is removed from an exchange line at the same time that it is disconnected.

At the request of the customer, the Company will confirm OLS codes associated with a line from which a call is placed.

7.2.10 Subscriber Line Charge

The Company recovers some of the costs of the telephone line or trunk connected to the Customer's Premises, and/or the associated switch port, through a monthly charge called the Subscriber Line Charge ("SLC"). The SLC is a monthly, flat-rated charge assessed to End Users for each local exchange service line or trunk. BRI lines are charged the multi-line business line rate, and PRI arrangements are charged the multiline business line rate times five (5).

7.2.11 Intra-Building Subscriber Line Charge

For Customers that collocate facilities in the Company's Central Office, an Intra-Building Subscriber Line Charge may apply on a monthly basis.

7.2.12 Local Number Portability ("LNP")

Local Number Portability ("LNP") allows, where facilities permit: (1) a local exchange telephone service customer to maintain the same Directory Number ("DN") when changing from one telecommunications carrier to another while remaining at the same location; and (2) callers to complete calls to numbers that have been ported.

7.2.13 LNP End User Surcharge

7.2.13.1 The Company will assess a monthly number-portability charge to End Users served by LNP-capable switches. The charge applied, for a period no longer than five years, to the Company End Users served by LNP-capable switches.

7.2.13.2 The monthly charge is assessed, as determined by the Company, to all End Users or resellers of local exchange service. The LNP End User Surcharge is assessed on a per line basis except as set forth following:

- (A) When a Customer is provided Integrated Services Digital Network-Primary Rate Interface PRI, or similar service that permits the provision of up to 24 voice-grade equivalent channels over a single T-1 facility, the LNP End User Surcharge is assessed per T-1 facility;
- (B) When a Customer is provided PBX Service, the LNP End User Surcharge is assessed per PBX trunk;
- (C) The LNP End User Surcharge is not assessed on Lifeline Customers.

7.2.14 Federal Universal Service Fee

In connection with the FCC's Universal Service Orders, the Company will pay a fee based on a percentage of its retail revenues to support the Universal Service Fund (USF). The Company will pass-through the USF assessment to its customers by assessing a surcharge applicable to all retail interstate and international charges, including usage and non-usage charges. This surcharge is in addition to standard usage charges and any applicable service charges and fees associated with the Company's service. The Company's Universal Service Fee factor will match the relevant quarterly Universal Service Contribution Factor approved by the FCC, rounded up to the nearest tenth of a percent. Universal Service Contribution Factors are available at www.fcc.gov/ccb/universal_service/quarter.html.
